

Mahindra Automotive

Mahindra Automotive North America (MANA) is Mahindra's North American automotive headquarters. In addition to leading all North American activity, MANA is a comprehensive automotive design, engineering and vehicle development center. Established in 2013 and located in Auburn Hills, Michigan, MANA's team of veteran executives, engineers and designers, working with affiliate Mahindra automotive teams in India, Korea and Italy, is playing a key role in growing Mahindra's global automotive business.

ROXOR

ROXOR is an off-road vehicle conceived, designed and engineered by Mahindra Automotive North America. The vehicle is produced in Auburn Hills in the first new OEM manufacturing operation to open in Southeast Michigan in more than 25 years. A rugged, no-nonsense side-by-side, ROXOR is a tribute to Mahindra's long history of assembling iconic military-grade vehicles beginning in 1947; it features a steel body on a boxed-steel frame, a heavy-duty Mahindra turbo-diesel 4-cylinder engine, and a truck-style transmission. The American-assembled ROXOR enters the off-road world with 70-years of proven capabilities based on its authenticity, simplicity and strength.
